DETAILED ACTION

1. The Amendment and IDS filed by Applicant on 11/17/2005 have been entered.

Response to Amendment/Arguments

2. Applicant's amendment and arguments filed on 11/17/2005 have been fully considered and they are found unpersuasive.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the

Art Unit: 1713

art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

5. Claims 1-9 and 21 remain rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Miller et al., U.S. Patent No. 4,343,755 (hereinafter "Miller").

6. Miller discloses a slow shearing thinning ethylene polymer. See Miller, Abstract; cols. 6-8. Although Miller does not disclose all the characteristics and properties of the claimed interpolymer disclosed in the present claims, based on the substantially identical process using substantially identical comonomers, the Examiner has a reasonable basis to believe that the properties claimed in the present invention is inherent in the ethylene polymers disclosed by Miller. Because the PTO has no means to conduct analytical experiments, the burden of proof is shifted to the Applicants to prove that the properties are not inherent. See In re Fitzgerald, 619 F.2d 67, 205 USPQ 594 (CCPA 1980); In re Best, 195 USPQ 430 (CCPA 1977); In re Napier, 55 F.3d 610, 613, 34 USPQ2d 1782, 1784 (Fed. Cir. 1995).

7. Even if the disclosure of Miller does not satisfy the requirements of 35 USC 102(b), it still would have been obvious

Art Unit: 1713

to one of ordinary skill in the art to arrive at the claimed interpolmer, because it appears that the claimed interpolmers are within the generic disclosure of Miller and a person of ordinary skill in the art would have expected all embodiment of Miller to have similar properties. Applicant has not demonstrated that the differences, if any, between the claimed interpolmers and the ethylene polymers disclosed by Miller give rise to unexpected results. The evidence presented to rebut the prima facie case of obviousness must be commensurate in scope with the claims to which it pertains. See In re Dill and Scales, 202 USPQ 805 (CCPA 1979).

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

9. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated

Art Unit: 1713

from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
